If there were a single person to add, I think I'd be inclined toward Patty. She has been close enough to action right along and she is conversant in both the NEPA and 404 worlds.

Thanks. I've recommended to Michelle Fraser that the meeting next week be scheduled around these calendars:

Chris Hladick
Matt Leopold
David Fotouhi
Brittany Bolen
Lee Forsgren

If that recommendation works for Chris but he'd like one or two folks added let me know if you have anyone you want there. I'm hoping that if we can get the letter out today the group listed above can provide the final revisions as necessary. I don't see a huge benefit to having a larger group meeting next week.

Sounds good. I thought you were quite diplomatic in responding to notion that people didn't have the documents to review, by the way.

Yes. It hasn't happened yet but I've pinged both Michelle and Pam and asked them to start looking at times next week where the principals can meet and discuss the letter. I'm suggesting to them that based on timing that meeting should be a short list of folks who can give final feedback to Chris on the letter.

Did someone let Michell Fraser know to cancel it from Chris' calendar?

Thanks Chris. I'll share the news with the team and work on getting those documents out today. The briefing paper was attached to the meeting invite and was finalized by 1pm ET yesterday so I'll work with OP and OGC folks to make sure both documents are emailed to the senior leaders when they are finalized.

We'll also work with Michelle Fraser to reschedule the briefing for next week.

Both Brittany Bolen and David Fothui want to cancel meeting today and reschedule next week. David said he had not seen briefing nor document yet. So let's concentrate on getting those out today.
